Single Punch Tablet Press

This compact and easy to use single punch tablet press machine is able to produce tablet diameters 2–22 mm, upto 50 KN force, producing upto 3,600 tablets per hour, providing unmatched levels of stability, precision and reliability.

[Click here to watch video](#)

Counting + Filling Machine

The professional GMP compliant counting and filling machine for tablets & capsules.

Filling and dosing by pure weighing is often too imprecise to achieve consistent results.

The benchtop system has a counting range up to 99'999 and a max speed of 57'000/h.
